

LOGISTICS AND PLANNING CAPABILITIES

Delivering Services to the Logistics and Distribution Industry

"...a strategic partnership to provide clients with cost effective solutions and strategic advice in all aspects of their supply chain operations..."

Our clients include Argos, IKEA, NHS, Hagemeyer, Wickes, DHL, GCHQ, BAA, Local Authorities, Government Departments, amongst others.

Foxley Tagg Planning Limited a proactive environmental town and transport planning consultancy and Apprise Consulting Limited, a well-established and experienced logistics consultancy have formed a strategic partnership to provide clients with cost effective solutions and strategy advice in all aspects of their supply chain operations, environmental, town and transport planning issues.

Both companies have a strong and proven track record in Project Management and are able, using expert staff, to create tailored packages to meet the needs of specific organisations. Whether it's advice on environmental issues and accreditations, assistance on operational matters or forward planning for new development projects, we are able to offer a quality personal service that matches modern business needs.

All our professional staff are members of the Chartered Institute of Logistics and Transport or Royal Town Planning Institute, and are fully apprised of the latest issues within the industry, providing a firm understanding of the commercial needs of clients and helping to deliver practical, sustainable solutions.
